DEPARTMENT OF INSPECTIONS

SOL J. JACOBS, DIRECTOR
300 PUBLIC HEALTH CENTER
MINNEAPOLIS, MINNESOTA 55415

October 25, 1985

Mr. Jack Baba
W. R. GRACE COMPANY
1720 Madison St. NE
Mpls., MN 55413

Dear Mr. Baba:

An inspection was recently made in response to another complaint about noise from mechanical equipment at your place of business. While the noise levels were lower than during our previous inspection, they are still in violation of city noise ordinances after 6:00 P.M., before 7:00 A.M., and all hours on Sundays and state and federal holidays.

This department, therefore, orders that you submit plans, together with a timetable for completion of those plans which show how you are going to bring the noise levels into compliance with city law. These plans must be received no later than November 15, 1985. This department also suggests that you obtain the services of a noise consultant who could assist you with this problem and direct you to a solution.

If you have any questions about these orders, please call 348-7897 or 348-7827.

Sincerely,

Glenn D. Kiecker
Pollution Control Specialist
348-7897 or 348-7827
